WEEKLY HAY SUMMARY

Everyone knows rain makes hay and the state is getting plenty of rain. It has reached the point in many areas where farmers are praying for a week of sun just to get caught up or at least make some progress. A few farmers are still making hay but that seems to have been an exception this week. Local hay sales always slow this time of year as most farmers are waiting to see how much hay they harvest to determine if they expect to need more for winter, but a few local sales of new crop beef quality hay have actually been selling cheaper. This is mostly attributed to the fact that fuel costs aren't as much of an issue when you're just driving across the holler. Hay supply is moderate, demand is light and hay prices are steady. The Missouri Department of Agriculture has a hay hotline available, to be listed, or for a directory, call 1-800-877-4HAY(4429). (All prices per ton unless specified and most reflect delivered price) Supreme quality alfalfa (RFV>185)100.00-140.00, Premium alfalfa (RFV170-180) 80.00-110.00, Fair to Good alfalfa (RFV130-170) Round bales 35.00-70.00, Small and Big squares 70.00-100.00, good quality mixed alfalfa and grass small square bales 2.50 to 3.00 per bale, Fair to good quality prairie hay 60.00-85.00, Good quality brome 50.00-85.00, Good quality timothy hay 3.00-3.50 per small square bale, Good quality red clover hay 30.00-60.00, Good quality mixed grass hay 12.00-25.00 per round bale, Fair quality large round bales fescue 10.00-20.00 per bale. Wheat straw 1.50-

*This is a **delivered** log report. It **does not** represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

- ** DIB = diameter inside bark at small end
- *** MBF = 1,000 board feet
- **** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale
- ***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:
 - three sides clear
 - both ends solid
 - determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.

To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
