1-2 60-80 lbs 125.00-140.00, 80-
100 lbs 110.00-125.00.

Missouri Weekly Hay Summary

What a week; one area in the north ended last week with lows of 6 above and hit highs of 57 just three days later; many other areas reached the 60's this week. So much for being able to get around, more moisture is once again in the forecast; seems like an every weekend guarantee. Local trading papers are adding new hay listings every day as many farmers are trying to find a new home for their surplus beef quality hay. It has been a tough year for those actually trying to make a living in the hay business with all the factors that just simply haven't been in their favor. Hay prices this week were mostly steady. Demand light to moderate. Supply is light on high quality hay, moderate to heavy on low to good hay. The Missouri Department of Agriculture has a hay hotline available for both buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429.) (All prices per ton unless specified) Supreme quality Alfalfa (RFV>185) 115.00-140.00 Premium quality Alfalfa (RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa (RFV130-170) Round bales 30.00-80.00 Small, Big squares and baleage (dry weight) 70.00-100.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.00 per bale 30.00-45.00 per large round bale Fair to good quality Prairie hay 50.00-75.00 Good quality Brome 50.00-85.00 Fair quality Brome some mixed with grass round bales 10.00-25.00 per bale Good quality Timothy Hay 2.50-3.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 10.00-30.00 per round bale 1.25 to 2.50 per small square Fair quality large round bales Fescue 7.00-20.00 per bale Wheat hay 40.00-60.00 Wheat straw 1.50-3.00 per small square bale

*This is a delivered log report. It does not represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

** DIB = diameter inside bark at small end

*** MBF = 1,000 board feet

**** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:

- three sides clear
- both ends solid
- determined to be sound and of good quality by buyer.

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.

To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
