Missouri Weekly Hay Summary

The hay market still in the same rut as it has been for several weeks as producers only having calls for hay that they do not have. Sales of higher quality alfalfa for the dairy industry, or high quality alfalfa/orchard grass for the horse owners, the only sales being made for now. Plenty of large round bales of grass hay still piled up in the corners of a lot of fields. Hay prices are reported as steady, Demand is light. Supply is light on high quality hay, moderate to heavy on low to average quality hay. The Missouri Department of Agriculture has a hay hotline available for both buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429). *This is a **delivered** log report. It **does not** represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

- ** **DIB** = diameter inside bark at small end
 - *** **MBF** = 1,000 board feet
 - **** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale
 - ***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:
 - three sides clear
 - both ends solid
 - determined to be sound and of good quality by buyer.
 Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.
- To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
