Missouri Weekly Hay Summary

A rough week here in Missouri as severe weather passed through over the weekend, numerous tornados and large hail caused damage to many areas in the state. If there was any positive to all this it was the much needed rain that come to several areas. The color green is making an appearance now as the pastures and hay fields begin to grow. It will take a lot more moisture in may areas however before a good first cutting is available in the next couple months. The rains have given a light of hope to many farmers as the number of cattle at sales took a drop and some farmers even pulled out a few fertilizer buggies, despite fertilizer prices. Hay prices this week are steady, supply is light to moderate and demand is moderate. The Missouri Department of Agriculture has a hay hotline available for buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429). (All prices per ton unless specified) Supreme quality Alfalfa(RFV>185) 125.00-150.00 premium quality Alfalfa(RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa(RFV130-170) Round bales 40.00-80.00 Small, Big squares 70.00-110.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.50 per bale 25.00-50.00 per large round bale Fair to good quality Prairie hay 40.00-60.00 Premium Quality Brome large Squares 90.00-100.00 Good quality Brome 40.00-70.00 Fair quality Brome and mixed with grass round bales 15.00-30.00 per bale Good quality Timothy Hay 3.00-4.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 20.00-35.00 per round bale Fair quality large round bales Fescue 15.00-25.00 per bale Wheat hay 40.00-60.00 Wheat straw 2.50-3.50 per small bale.

*This is a *delivered* log report. It *does not* represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

** **DIB** = diameter inside bark at small end

*** **¢BF** = cents per board foot

**** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:

- three sides clear
- both ends solid
- determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including,

but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.

To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
