Missouri Weekly Hay Summary

The Southwest quarter of the state is dry. Eighty percent of the pastures are rated from poor to very poor condition. Supplies of stock water and hay in this area of the state are very short. Temperatures late this week will exceed the 90 degree mark. Dry, hot conditions this early in the growing season are stirring producer conversations that reference "80", "54", and "36". Weevils are reported in alfalfa in southern Missouri this week. Demand for cattle hay is evaporating in much of the remainder of the state, as cattle have been turned to pasture. Demand for high quality horse and dairy hay continues to be good for a light supply. Hay prices this week are mostly steady to as much as 10.00 per ton higher for high quality alfalfa, hay supply is light, and demand is light to moderate. The Missouri Department of Agriculture has a hay hotline available for buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429).(All prices per ton unless specified) Supreme quality Alfalfa(RFV>185) 125.00-160.00 premium quality Alfalfa(RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa (RFV130-170) Round bales 40.00-80.00 Small, Big squares 70.00-110.00 Good quality mixed Alfalfa and grass small square bales 3.00-4.00 per bale 25.00-50.00 per large round bale Fair to good quality Prairie hay 40.00-60.00 Premium Quality Brome large Squares 90.00-100.00 Good quality Brome 40.00-70.00 Fair quality Brome and mixed with grass round bales 15.00-30.00 per bale Good quality Timothy Hay 3.00-4.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 20.00-35.00 per round bale Fair quality large round bales Fescue 15.00-25.00 per bale Wheat hay 40.00-60.00 Wheat straw 2.50-3.50 per small bale.

*This is a *delivered* log report. It *does not* represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

** DIB = diameter inside bark at small end

*** ¢BF = cents per board foot

**** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:

- three sides clear
- both ends solid
- determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color to realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
