**Missouri Weekly Hay Summary- Week ending 12/24/10**

With the official arrival of winter and just slightly over a week left in the year many farmers are doing their books and checking them twice making most of the next two weeks decisions based the tax year. The supply of hay is currently moderate, however farmers who haven't secured enough hay for this feeding season should at very least keep up to date as dryness to the east and also lack of wheat pastures to the west is resulting in more hay being used earlier in the feeding season in the neighboring states. Depending on the length of the feeding season this could have an effect on both the amount of hay available to be trucked in as well as the cost. Statewide hay prices are steady demand is moderate to light. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory, visit [http://mda.mo.gov/abd/hay\\_directory/](http://mda.mo.gov/abd/hay_directory/) or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs) Premium to Supreme quality Alfalfa 140.00-175.00 Fair to Good quality Alfalfa large round bales 75.00-120.00 Small, Large squares 90.00-140.00 Good quality mixed Alfalfa and grass small square bales 3.50-5.00 per bale; 30.00-60.00 per large round bale.
