#### Missouri Weekly Hay Summary Week ending 1/21/11

Another round of fury from old man winter brought hay movement to a standstill this week. The second large snow of the year and a long stretch of below freezing days earlier this year has lead to farmers in some areas feeding a large amount of hay this winter. In most areas hay supply seems to be holding out well although hay quality in most cases is only average and requires additional supplementation. A few reports of feeders searching and finding some high quality hay tucked in barns have trickled in this week, so there is at least some high quality hay left to be found and given the current price of corn even the best hay can be bought at a cheap price compared to what additional supplement would cost. Hay prices this week are mostly steady. Supply and demand of hay is moderate. Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory, visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/hay1st/> (All prices fob. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs) Supreme quality Alfalfa (RFV>185) 150.00-170.00 Premium quality Alfalfa (RFV170-180) 140.00-160.00 Fair to Good quality Alfalfa (RFV130-170) large round bales 75.00-120.00 Small, Large squares 90.00-140.00 Good quality mixed Alfalfa and grass small square bales 3.50-5.00 per bale; 30.00-60.00 per large round bale.
