Missouri Weekly Hay Summary Week ending 3/18/11

Another dose of winter came to central MO this week as several inches of snow came and quickly went. Most all the rest of the state received several inches of currently unwanted rain. Farmers would like to be spreading fertilizer but crop fields, hay fields, and even the most rocky hill side pastures in the state are way too soft to get over with a spreader. Mud has made for difficulties with delivering load of hay. Producers especially in the southern part of the state are now count down the few days left before green grass and eager to call the feeding season of 2010 done. Hay prices this week are mostly steady. Supply and demand of hay is moderate. Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory, visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices fob. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs) Supreme quality Alfalfa (RFV>185) 150.00-170.00 Premium quality Alfalfa (RFV170-180) 140.00-160.00 Fair to Good quality Alfalfa (RFV130-170) large round bales 75.00-120.00 Small, Large squares 90.00-140.00 Good quality mixed Alfalfa and grass small square bales 3.50-5.00 per bale; 30.00-60.00 per large round bale.
