Missouri Weekly Hay Summary Week ending 01/06/12

As we enter the new year with unseasonably warm weather hay producers remained concerned about the need for moisture and the lingering effects of 2011's drought on spring forage growth. Cattle producers are certainly enjoying the reprieve from extreme temperatures and the firm ground as many will be hauling loads to the sale barn in the next couple weeks. Hay demand within the state has softened. Prices for hay are steady to firm. Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory, visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs)
