Missouri Weekly Hay Summary Week ending 02/24/12

Many producers have started analyzing their operations and are making decisions about how to use their acres. The trend in recent years has seen hay and pasture acres lost to corn and soybeans; that seems likely again this year. The mild weather and calendar, no doubt have producers readying for fertilizer application. Hay demand is moderate, supplies are light and prices are steady. Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed or for a directory, visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs)
