Missouri Weekly Hay Summary Week ending 02/14/2014

Above freezing temperatures are bound for the Show-Me State for the next several days. Despite the snow cover that will be rapidly disappearing with the warmer weather, most regions would welcome rain. The hay market continues to be stagnant and with spring moving in soon, there are a lot of questions about where the market will be with new crop hay. Hay supply is heavy, demand is light and the prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
