Missouri Weekly Hay Summary Week ending 02/21/2014

With warmer weather melting away the snow cover and revealing the slightly verdant tint of pastures, spring optimism abounds. Even hay producers who have spent the winter shaking their heads at the amount of hay available around the state are relieved to see good pasture conditions. Those happiest with current hay market and pasture conditions however are the cow/calf producers looking to rebuild their herds. Hay supply is heavy, demand is light and the prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
