Hay business continues to be inactive to very limited. Even with feeding taking place the majority of farmers have plenty of available feed without looking off farm this point. Hay prices continue to be weak but have dropped to the point producers likely aren't covering production cost as is. As typical markets of dairy and high quality horse hay are slightly stronger due to the difficulty of production but even these markets are struggling due to cheap corn prices and low milk prices. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
