**Missouri Weekly Hay Summary**

Spring officially arrives this week. Although feeding will still take place for several weeks, producers are thinking about the tints of green that are starting to appear. There continues to be some light movement of hay as the feeding days wind down. Warmer days will have cattle chasing grass soon and feeding requirements will begin to decrease allowing farmers to focus on fertilizing and spring planting season. The supply of hay is mostly moderate and demand is light to moderate. Prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
