**Missouri Weekly Hay Summary**

Farmers have made progress in the fields over the last week but the pace is behind normal and much slower than most would like. Most have managed to get the majority of fertilizer spread over pastures and hay fields. Producers not busy trying to plant grain are starting to prepare hay equipment, although first cuttings are still a few weeks out. Alfalfa producers are also monitoring and spraying as needed for weevils. The supply of hay is moderate and demand is light. Prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
