**Missouri Weekly Hay Summary (12/04/15)**

Hay movement continues to be limited, heavy rains over the last couple of weeks still have some areas dealing with high water and limited travel on the back roads. Hay pens are muddy and getting semis in and out is not possible in most areas. Many producers are feeding at least some hay now, most are using the current situation as a good opportunity to get rid of the lower quality hay out of the hay piles. The supply of hay is heavy, demand is light and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
