Missouri Weekly Hay Summary (12/11/15)

Unseasonable warm weather had many farmers double checking their calendars this past week. Mud continues to be troublesome for producers feeding but still better than what could be happening in Dec. More rains are expected late this weekend and into early next week as well. Producers are somewhat welcoming to the thought of some cold to help straighten out health of cattle and ease farm travel. The continuing decline of milk and grain prices has not been very supportive to a lack luster hay market over the last month. The supply of hay is heavy, demand is light and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
