Missouri Weekly Hay Summary (1/21/16)

Old Man Winter made a pretty fierce appearance over the last week for most all of the state. Freezing temperatures with moisture ranging from snow to ice made travel aggravating to downright dangerous depending on which part of the state one was in. Cattle needs have peaked with the cold weather. Hay movement however remains very light as most producers just don't have any buying needs currently. Listings have become very few in most local papers not because of a lack of supply but many have had so little interest the listings weren't even worth the time. The supply of hay is heavy, demand is light and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Premium quality Alfalfa (RFV 170-180) 150.00-190.00
