Missouri Weekly Hay Summary (03/24/16)

A spring storm of the winter type hit much of the Midwest this week; most of Missouri was spared minus some very light snow in a few areas. There were reports of wind and hail, and even some heavy frost a morning or two. This is concerning as many plants had already begun to grow but most seem to think there wasn't much damage done, of course the alfalfa crop being the most vulnerable and concerning. The talk of cold also slowed many who were ready to jump into spring planting and made several reconsider. Several folks are now talking about new crop hay prices and considering if they should or shouldn't contract next year's feeding needs. The supply of hay is moderate, demand is light and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-200.00
 Premium quality Alfalfa (RFV 170-180) 150.00-190.00
