Missouri Weekly Hay Summary Week ending 1/20/2017

Following ice and rains which in some of the southern areas of the state reached amounts of 3-4 inches farmers are dealing with some fairly serious winter mud. Temperatures have warmed enough that even in the early hours of the day the ground is still too soft to get around very well. This has made feeding or getting in and out of many hay lots quite an aggregation. USDA's annual crop summary was released recently showing nationwide hay stocks are the highest since 2010. Somewhat surprising Missouri stocks were actually down 4.5 percent from last year, but sure there isn't any shortage of hay in the country. The supply of hay is moderate, demand is light and prices are mostly steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-240.00

Premium quality Alfalfa (RFV 170-180) 160.00-200.00
