#### Missouri Weekly Hay Summary Week ending 02/24/2017

Farmers are finding this year is starting off to be as odd of a growing year, a year as last year ended up being. The past week seen new record highs set someplace in the state nearly every day. Kansas City has recorded the longest warm streak in weather history for the month of February. Reports that soil temps have reached the low to mid 50's already in southwest Missouri has the wheat crop growing at a fast pace already and many other plants starting to ever so slightly begin to show some green. Farmers are very concerned knowing that a killing freeze is still very possible but continue to spray and do field work because there really isn't any other option. The supply of hay is moderate, demand is light and prices are mostly steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-240.00  
Premium quality Alfalfa (RFV 170-180) 160.00-200.00
