lbs 80.00-90.00 (per cwt.)

**MISSOURI WEEKLY HAY SUMMARY**

After a couple weeks of difficult farming weather, this week has given us a preview of what good summer hay making weather is suppose to be like. Just about every tractor in the state made it to the fields this week. The few farmers stated on the second cutting of alfalfa have a smile on there face that reaches from ear to ear as they are finally getting to bale some high quality hay. Wheat harvest is now under way so some new crop straw should enter the market soon. Prices mostly steady. Prices per ton unless specified). Supreme quality alfalfa 110.00-160.00. Premium quality alfalfa 80.00-110.00. Prairie hay 65.00-85.00, Good quality brome hay 80.00-115.00. Good quality large round bales mixed grass hay 15.00-25.00, Good red clover hay 60.00-80.00. Fair quality large round bales Fescue 10.00-25.00 per bale. Wheat hay 50.00-60.00. Wheat straw 1.50-2.25 per small square.

**MIDWEST EGG REVIEW**

Prices on large .02 higher, medium steady, small steady. IOWA-MINNESOTA-WISCONSIN: Prices paid to producers. (Cents per dozen) Large .46-.50, Medium .33-.35, Small .12-.16.

**Missouri Regional Fescue Seed Report**

Farmers are out taking samples but most are finding just a little too much moisture to pull through the gates just yet. If no rain pops up areas in the south expect to start see a good number of trucks buy Tuesday or Wednesday. Areas in the north are saying that it is still about 10 to 14 days before they expect to see much action. The crop this year is expected to yield another good harvest, this added with the left over from last year means that buying stations will be very picky with seed quality this year. Early calls are reporting prices are steady with the start of last season and just a couple cents higher than the end of last year on the wet moisture but steady on the dry moisture. (Dry: Moisture 12-14%-Wet: Moisture greater than 14%) (Prices per lb.)Prices: .18 wet, .20 Dry

**WEEKLY COMMODITY GRAIN FUTURES TRENDS**

Compared to last Friday: Soybeans .06 to .15 higher, Wheat .01 to .06 lower, Corn .01 to .02 lower, Soybean meal .30 to 1.50 higher, except Oct .20 lower, KC wheat steady to .09 lower, (all price trends approximate ranges).

\*This is a **delivered** log report. It **does not** represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

**Definitions:**

\*\* **DIB** = diameter inside bark at small end

\*\*\* **MBF** = 1,000 board feet

\*\*\*\* **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

\*\*\*\*\* **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by: three sides clear • both ends solid • determined to be sound and of good quality by buyer Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color. To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.

The Weekly Market Summary is available to anyone for an \$18.00 annual subscription fee. To subscribe, send your check or money order to: Weekly Market Summary, Missouri Department of Agriculture, PO Box 630, Jefferson City, Missouri, 65102
