96.00, woolled 92.00-94.00. 100 lbs 100.00-115.00.

WEEKLY HAY SUMMARY

No problems with mud this week as an arctic blast has frozen the ground hard as a rock. Farmers have gotten the joy of chopping ice and struggling with getting tractors running to feed. If there is an upside to all the bitter cold it would be most areas in the state missed out on the snow so cows have managed to stay dry. Hay prices have fallen slightly on the low end hay as many farmers are now trying to move some hay to prevent overflow next year, a tough task as every one seems to be in the same boat. If one can find the gold at the end of the rainbow, in this cast a pile of top quality alfalfa, demand is high enough to about cause an old fashioned throw down. The Missouri Department of Agriculture has a hay hotline available for both buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429). (All prices per ton unless specified) Supreme quality Alfalfa(RFV>185) 100.00-140.00 Premium quality Alfalfa(RFV170-180) 80.00-110.00 Fair to Good quality Alfalfa(RFV130-170) Round bales 30.00-80.00 Small, Big squares and baleage (dry weight) 70.00-100.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.00 per bale 30.00-45.00 per large round bale Fair to good quality Prairie hay 50.00-75.00 Good quality Brome 50.00-85.00 Fair quality Brome some mixed with grass round bales 10.00-25.00 per bale Good quality Timothy Hay 2.50-3.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 10.00-30.00 per round bale 1.25 to 2.50 per small square Fair quality large round bales Fescue 7.00-20.00 per bale Wheat hay 40.00-60.00 Wheat straw 1.50-3.00 per small square bale

*This is a delivered log report. It does not represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

- ** DIB = diameter inside bark at small end
- *** MBF = 1,000 board feet
- **** Weighted Average = value of logs at the weighted average board foot price figured at Doyle Scale
- ***** Logs = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:
 - three sides clear
 - both ends solid
 - determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.

To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
