106.00.

WEEKLY HAY SUMMARY

Hay movement was active this week due to improved road and ground conditions. The cold temperatures which spread through the Show-Me state late last week stiffened mud. As a result, feeding and transportation activities were much improved this week. The forecast for warmer temperatures and yet more precipitation isn't welcome as the existing muddy conditions are as bad as anyone can remember. A large supply of fair to poor quality hay continues to add pressure to the market for all hay. Hay prices are steady on low to good quality hay, steady to firm on higher quality hay. Demand moderate. Supply moderate to heavy. The Missouri Department of Agriculture has a hay hotline available for both buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429.) (All prices per ton unless specified) Supreme quality Alfalfa (RFV>185) 115.00-140.00 Premium quality Alfalfa (RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa (RFV130-170) Round bales 30.00-80.00 Small, Big squares and baleage (dry weight) 70.00-100.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.00 per bale 30.00-45.00 per large round bale Fair to good quality Prairie hay 50.00-75.00 Good quality Brome 50.00-85.00 Fair quality Brome some mixed with grass round bales 10.00-25.00 per bale Good quality Timothy Hay 2.50-3.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 10.00-30.00 per round bale 1.25 to 2.50 per small square Fair quality large round bales Fescue 7.00-20.00 per bale Wheat hay 40.00-60.00 Wheat straw 1.50-3.00 per small square bale

*This is a **delivered** log report. It **does not** represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

** **DIB** = diameter inside bark at small end

*** **MBF** = 1,000 board feet

**** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:

- three sides clear
- both ends solid
- determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color.

To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
