110.00, woolled 106.00-108.00. 100 lbs 110.00-125.00.

Missouri Weekly Hay Summary

Hay season has arrived and is well under way now especially in the southern areas of the state. Producers have been happy with the hay quality so far just not thrilled about the yields. Many producers are slightly concerned about the amount of hay we will have this coming feeding season. Just a few reports of army worms in some areas so far we don't seem to be over run but defiantly something to keep an eye on. Wheat is starting to turn in some areas so new crop straw isn't to far away. This is a good thing as the straw market has picked up and seems to be on fire old crop supplies are also running very short. Hay movement is moderate, prices are reported as mostly steady and supply is moderate. (All prices per ton unless specified) Supreme quality Alfalfa (RFV>185) 115.00-135.00 premium quality Alfalfa (RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa (RFV130-170) Round bales 30.00-80.00 Small, Big squares and baleage (dry weight) 70.00-100.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.00 per bale 20.00-40.00 per large round bale Fair to good quality Prairie hay 40.00-70.00 Good quality Brome 50.00-85.00 Fair quality Brome some mixed with grass round bales 10.00-25.00 per bale Good quality Timothy Hay 2.50-3.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 10.00-25.00 per round bale 1.25 to 2.50 per small square Fair quality large round bales Fescue 7.00-15.00 per bale Wheat hay 40.00-60.00 Wheat straw 1.50-3.00 per small bale.

*This is a *delivered* log report. It *does not* represent or imply prices paid for standing timber on your land. Values of standing timber can vary significantly from delivered due to the following: proximity to solid roads and saw mills, size of offering and proximity to other offerings, land terrain, prevailing conditions, quality, size, density, and species of timber.

Definitions:

** DIB = diameter inside bark at small end

*** MBF = 1,000 board feet

**** **Weighted Average** = value of logs at the weighted average board foot price figured at Doyle Scale

***** **Logs** = The prices in this report are for logs that are classified as U.S. Forestry grade one logs and more specifically described by the DIB and length in the report, as well as by:

- three sides clear
- both ends solid
- determined to be sound and of good quality by buyer

Buyers use many criteria to determine the soundness and quality of a log, including, but not limited to: ring size, frost cracks, sweep, stain, back thickness, scars, crook, and color. To realize the most from the sale of timber, it is recommended to seek the advice of a professional forester. For more information call 1-800-328-1165.
