Missouri Weekly Hay Summary

Below freezing temperatures, a slight dusting of snow, eight to ten inches of rain, and wind gusts past 50 mph; that about sums up this week and what a change it was from the record highs of last week. Hay movement remains moderate to active in most areas. If the ground manages to freeze it could slow the active straw market as landscaping will stop for the winter. Although rains were a bit excessive, areas, especially in the south central were glad to see ponds full for the first time in a while. Hay supply is moderate and demand is good, and prices are steady. The Missouri Department of Agriculture has a hay hotline available for buyers and sellers. To be listed, or for a directory, call 1-800-877-4HAY(4429).(All prices per ton unless specified) Supreme quality Alfalfa(RFV>185) 120.00-145.00 premium quality Alfalfa(RFV170-180) 90.00-125.00 Fair to Good quality Alfalfa(RFV130-170) Round bales 30.00-80.00 Small, Big squares 70.00-110.00 Good quality mixed Alfalfa and grass small square bales 2.50-3.50 per bale 25.00-50.00 per large round bale Fair to good quality Prairie hay 40.00-60.00 Premium Quality Brome large Squares 90.00-100.00 Good quality Brome 40.00-70.00 Fair quality Brome and mixed with grass round bales 15.00-30.00 per bale Good quality Timothy Hay 3.00-4.50 per small square bale Good quality Red Clover hay 25.00-50.00 Good quality Mixed Grass hay 20.00-35.00 per round bale Fair quality large round bales Fescue 15.00-25.00 per bale Wheat hay 40.00-60.00 Wheat straw 2.50-3.50 per small bale.

Weekly Crop Report

Agricultural Summary Missouri farmers are finishing up the fall harvest of all major crops earlier than normal. The past week permitted 6.4 days suitable for fieldwork. Topsoil moisture ratings are reported as 13 percent very short, 34 percent short and 53 percent adequate, a general decline in most areas due to the warm temperatures and minimal rainfall. **Field Crops Report** Ninety-seven percent of the corn has been harvested, 2 weeks ahead of last year and 1 day ahead of the 5-year average of 96 percent. Only scattered fields in some of the northern counties remain unharvested. Soybeans are 96 percent harvested, over 3 weeks ahead of last year's late progress and 2 weeks ahead of the average of 89 percent for this date. The bean harvest is nearing completion in all districts, with the least advanced areas being the east-central at 94 percent, followed by the northwest and central districts at 95 percent. Ninety-six percent of the sorghum is harvested, over 2 weeks ahead of last year and a week ahead of the 94 percent average. Progress ranges from 83 percent complete in the central district to 95 percent or more in all other districts. Virtually all cotton has been harvested, over 2 weeks ahead of the 87 percent average for this date and the earliest in several years. Ninety-seven percent of the winter wheat is planted, about 3 weeks ahead of last year and over 2 weeks ahead of the normal 86 percent for this date. Progress varies from 93 percent in the central district to 99 percent in the northeast and southeast districts. Eighty-three percent of the crop has emerged, also well ahead of last year and average. Condition of wheat is rated as 9 percent poor, 50 percent fair, 36 percent good and 5 percent excellent, similar to a week ago. **Pasture & Livestock** Pasture condition ratings averaged 17 percent very poor, 22 percent poor, 38 percent fair, 22 percent good and 1 percent excellent, similar to a week earlier. Ratings are lowest in the southwest district, at 84 percent poor or very poor, followed by the northeast, south-central and southeast districts, all 44 percent or more poor or very poor. Stock water supplies are rated at 20 percent very short, 27 percent short, 52 percent adequate and 1 percent surplus, a slight decline from a week earlier. Reporters in many of the driest counties are concerned that water in stock ponds is inadequate to last through the winter.
