Missouri Weekly Hay Summary

Spring seemed to arrive about a week early, as temperatures have been several degrees above normal. Many farmers are well on their way, getting spring fertilizer on pasture and grasses. Even though hay cutting is still a ways away many are thinking about new crop prices and what the market may do. Currently cattle are chasing grass, and hay feeding is slowing but still needed. The supply of hay is light, demand is good, and prices steady. The Missouri Department of Agriculture has a hay hotline available for buyers and sellers.
