Northeast Missouri Show-Me-Select Replacement Heifer Sale
 F and T Livestock Market, Palmyra, MO 12/14/13

Receipts: 275 Year Ago: 312

All Heifers in the sale have met minimum standards for reproductive soundness, pelvic size, body condition and weight. They have also undergone a comprehensive health program, and were guaranteed bred to easy calving bulls, with many synchronized and artificially bred. Projected calving dates were given for all lots with the heifers expected to calve from January thru April, with the majority due in February and early March. The offering was screened for blemishes, muscle, frame, body condition score (BCS), and disposition by a final screening committee comprised of official graders from USDA and the Missouri Department of Agriculture, then sorted into lots according to calving dates and body type similarity. A full house was on hand despite receiving about four inches of snow overnight on Friday making road conditions less than ideal. Demand was good with the sale averaging 2177.00 per head on 86 lots. This was 80.00 per head above last year's average. 189 head of the heifers were AI bred with their average at 2264.00 per head and the 86 head of natural bred heifers averaged 1986.00.
