Missouri Weekly Hay Summary Week ending 1/31/2014

Each passing day of winter it becomes increasingly less likely that producers are going to cut deeply into their mountains of hay. Looking ahead to spring and summer, with even fair yields on most pastures, supplies look to remain stable. Unless extremely harsh weather is seen across all regions of the state for an extended period, a great deal of 2013 hay will most likely be for sale come fall. Hay supply is heavy, demand is light and the prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
