Missouri Weekly Hay Summary Week ending 02/28/2014

Another round of winter is headed for the Show-Me State. While March snow may typically cause hay prices to inflate, this year it is hardly noticed. Other than moving hay to be more convenient to feed, most bales continue to sit just as they were last summer. While prices are steady for the time being, the amount of hay being advertised for sale seems to be on the rise, as those with heavy supplies are working to market their hay and get matched up with the right buyer. Hay supply is heavy, demand is light and the prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> or for current listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales prices listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
