Missouri Weekly Hay Summary Week ending 03/24/2017

Spring officially arrived this week, but so far no wide spread showers, some isolated areas did receive some moisture but nothing like what is really needed. That being said farmers are getting a lot of field work done in preparation for planting. Several are making good progress spreading fertilizer on pastures and hay fields as well. Still a lot of hay being trucked to those affected by the fires but locally hay business is pretty none existent. The supply of hay is moderate, demand is light and prices are steady to weak. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
