Missouri Weekly Hay Summary - Week ending 03/16/2018

Although Spring is drawing closer many in east central and northeast Missouri were questioning that following 2-4 inches of snow last Saturday. Areas are greening up but growth so far is slow as warmer temperatures are needed to give grass a good kick start. Hay piles seem to have really dwindled over the last month. Not all farmers are out of hay by any means but many are not overly eager to sale any hay especially if it is good quality and worth carrying over. There is hay that can be found and bought but in many cases the hay being offered is lower quality. Hay movement is light to moderate. Hay supplies are light to moderate, demand is moderate and prices are firm to higher. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit http://mda.mo.gov/abd/haydirectory/ for listings of hay http://agebb.missouri.edu/haylst/ (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
