**Missouri Weekly Hay Summary 04/04/19**

Rains late last week brought field work to a stop once again. There was a bit of fieldwork and fertilizer application that got completed, but many were just getting started when conditions became too muddy once again. Grass is greening and starting to grow but still needs some warm sunny days to outpace livestock that is eager for fresh nutrients. The supply of hay is light, demand is moderate and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
