**Missouri Weekly Hay Summary 04/11/19**

Some farmers were able to get back into fields this week. Winds and near record high temperatures helped to dry the ground back out some. There were some reports of some baleage being made this week as some cereal rye was wrapped up. Grasses are growing at a pretty good rate now and won't be long before more hay equipment gets put to use. The supply of hay is light, demand is moderate and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximate-ly 1200-1500 lbs).
