Missouri Weekly Hay Summary 12/06/19

Some producers are starting to feed some hay but many still have some stockpiled pastures that will last a while as long as they don't get snow covered. Mud is becoming a problem as the ground has once again thawed out making getting around a bit difficult. Unlike many neighboring states hay supplies are in good shape prior to winter. Like normal a lot of fair hay but the top quality hay is bit harder to find and requires more time and effort to fine. The supply of hay is moderate to heavy, demand is light to moderate and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales.
