Missouri Weekly Cattle Auction Summary 1/10/22

Receipts: 49,063 Week ago: 859 Year ago: 59,347

Compared to last week, feeders under 600 lbs. sold uneven from 3.00 lower to 3.00 higher, feeders over 600 lbs. sold steady to 3.00 lower. There was several spots of calves just on either side of the 500 lb. mark that sold sharply higher. Overall markets did seem to take a bit of a breath. A much different kind of week this week with nowhere close to the amount of big drafts and pot loads, especially on the heavier weight cattle. Some reporters even committed it had been a long time since they had seen this volume of run with so many small lots and odds and ends in a sale. That isn't to say there wasn't still reputation decent sized lots offered, and they still bring premiums, but it wasn't a full day of watching ring full after ring full regardless of what location you were at. Winter weather also came back into the picture late week as snow spread across the state. Most reports were 2-4 inches but there was many scattered pockets of up to 8 inches around. Boxed beef cutouts climbed higher this week. Choice closed on Friday at 284.31, up 12.49 and select closed at 273.97, up 12.87 compared to the previous week. Feedlot volume was lackluster with just under 60K head reported as of the Friday afternoon report. Live sales were mostly in the 135.00-138.00 range and dressed sales were almost entirely at 218.00. The Missouri Stocker Formula consists of 11,221 head with a weighted average weight of 556.05 and a price value of 178.99, 1.45 lower than last week.

MISSOURI WEEKLY HAY SUMMARY 01/13/22

A decently mild week around the state between winter storms and cold temperatures. Farmers have appreciated a little sun and a few days above freezing. Hay production and stock numbers were released in USDA reports this past week officially showing just how grim the growing season was in many states. Nationwide, December hay stocks were reported at a 10 year low, with the Dakota's reporting over a 40% decline in stocks. As many know, Missouri was very lucky. Although production was down from 2020, hay stocks in Missouri were reported as the second highest in the nation, behind only Texas. Given that many farmers have ample supplies, hay business remains somewhat slow with most interest continuing to be from equine or small animal interest. The supply of hay is moderate and demand is light to moderate and prices mostly steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>
