**Missouri Weekly Cattle Auction Summary 05/16/22**

Receipts: 23,609 Week ago: 25,883 Year ago: 19,489

Compared to last week, feeder steers sold mostly steady to 2.00 lower, heifers sold uneven from 2.00 lower to mostly 2.00 higher. The feeder supply has mostly shifted to calves now with 63 percent of the offering under 600 lbs. A lot of the offering now is smaller groups of calves many carrying a bit of flesh and still bawling. A decent week of weather finally allowed farmers to get into fields this week which kept many away from barns. Typically this is a slow season for marketing cattle as everyone is turned to grass. For the most part auction receipts over all will be lighter until we see a few yearling specials late June and early July. Although official numbers will not be out until late in the business day on Monday, many are expecting to see a big jump in acres planted and we also know some haying has been done but that number should still be small as historically Memorial Day weekend is when many get to the hay fields. Boxed beef cutouts closed the week mixed, choice was up 4.51 at 258.95 and select lost 1.16 closing at 243.90. Negotiated feedlot sales as of Friday afternoon totaled a bit over 85k head. Live sales were from 140.00 in the south to 145.00 in the north with a few early week up to 148.00. Dressed sales were mostly 230.00. The Missouri Stocker Formula consist of 6205 head with a weighted average weight of 539.07 lbs. and a price value of 186.43, down 2.45 from last week. The steer/heifer spread is 24.21.

**MISSOURI GRAIN WEEKLY TRENDS**

Compared to last week, Soybeans 0.25 to 0.29 higher, Wheat 0.68 to 0.71 higher, Corn 0.04 lower to 0.02 higher, Sorghum 0.03 to 0.04 lower.

**MISSOURI WEEKLY HAY SUMMARY 05/13/22**

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Temperatures have really heated up this week. Pastures will no doubt start to grow up and thicken. There have been some reports of farmers cutting alfalfa and some baleage being made, although there hasn't been numbers officially reported in the crop progress report yet. This week's progress report showed pasture condition rated as 59 percent good and 35 percent classified as fair. The supply of hay is moderate, demand is light and prices are mostly steady, although sales are very limited at this time. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

- Alfalfa - Supreme 200.00-250.00, small square 8.00-12.00 per bale
