MISSOURI STEER (HEIFER) STOCKER FORMULA 07/31/2023 Monday's Missouri Stocker formula consists of **3014** (**3486**) head with a weighted average weight of **555.14** (**534.80**) lbs. and a price value of **272.01**(**245.27**), 2.19 lower (0.20 lower) than last week. This a rolling seven day calculated weighted value which combines all Feeder Steers report-ed by MDA/USDA Market News Service weighing from 400-649 lbs. in the Medium and Large 1 and Medium and Large 1-2 frame and muscle classifications, including all com-ment cattle except Brahman X. Heifer values are in parentheses.

MISSOURI WEEKLY CATTLE AUCTION SUMMARY

Compared to last week, calves sold uneven from 10.00 lower to 5.00 higher but most sales were on the lower side this week. Yearlings 700 lbs. and above sold steady to 5.00 higher, although heifers over 750 lbs. were only lightly tested this week. The supply of feeders was light to moderate and pretty typical of a late July offering. Extreme heat dampened buyer's excitement on the calf market this week and those high risk calves continue to find very little excitement. Yearlings on the other hand, many of which that are still out there have been held back typically in load lots garner a lot of excitement and continue to sale at or near record high prices. Generally the producers that keep yearlings to market this time of know how to play the game and are bringing uniform load lots without too much condition, long time weaned with all the shots and buyers eagerly pay for that type of management. A few stick out sales this week included, 81 head of 617 lb. steers at Unionville Livestock Market that sold for 294.00, there was also 5 loads of reputation steers all around 850 lbs. that sold from 249.10-251.25. Tina Livestock Market sold 104 head of reputation steers that averaged 809 lbs. for 255.25. Load lots of calves are nearly nonexistent but 24 head of 430 lb. steers weaned, shots and uniform sold at 313.00. Slaughter cows continue to sell at very high prices with most average dressing breaking and boning cows 105.00-110.00 with some of the high dressing cows getting into the high 130's and low 140's now. Demand for replacement cows has seen a bit of an uptick with much of it coming from states to the north as of right now even the high quality bred cows appear to be a bargain compared to what cull weight up cows are selling at. Locally very few have feed to take any home however. Boxed beef cutouts were mixed for the week. Choice closed at 302.00, down 0.74 and select closed at 277.54, up 0.81 compared to last Friday. Negotiated feedlot sales as of the Friday afternoon was very limited with only about 19K head. There was undoubtedly more trade that occurred after the report cutoff. The majority of sales reported were in Iowa with live sales at Fed cattle prices were stronger in the north with live sales 185.00-188.00 and dressed sales 291.00-295.00. The Missouri Stocker Formula consist of 3014 head with a weighted average weight of 555.14 lbs. and a price value of 272.01, 2.19 lower than last week. The steer/heifer spread is 26.74.

The Weekly Market Summary, as well as historical summaries, are available on our website https://agmarketnews.mo.gov/summaries Market News Hotline: 1-573-522-9244

AFTERNOON NATIONAL SLAUGHTER CATTLE REVIEW So far for Friday in the Texas Panhandle negotiated cash trading has been at a standstill. In Kansas and Nebraska negotiated cash trading has been inactive with very light demand. In the Western Combelt negotiated cash trading has been slow on light to moderate demand. A few Live FOB purchases traded from 185.00-186.00. However, not enough purchases for a full market trend. The latest established market in all regions was last week. In the Southern Plains Live FOB purchases traded at 180.00. In Nebraska and Western Cornbelt Live FOB and Dressed Delivered purchases traded at 188.00 and at 295.00, respectively.
