MISSOURI WEEKLY CATTLE AUCTION SUMMARY

Total Receipts: 24,358 Week Ago: 34,310 Year Ago: 17,504

Compared to last week, a light test of feeders under 600 lbs. sold unevenly steady, feeders over 600 lbs. sold steady to 5.00 higher. Many sales were off or had very light offerings due to a combination of factors including the holiday week, the heat, and hay season. A few annual holiday week special sales made up the majority of this week's offering and were mostly heavy weight yearling cattle that sold in load or multiload lots. Many of these cattle had attractive weight ups for buyers due to the extreme heat this past week. The weather finally provided a break and nearly every piece of hay equipment in the state found its way to the field. Producers giving a much different report on the late cutting hay as plenty of moisture kept undergrowth growing good and yields were much better than early cut hay, although quality varied depending on grass types. Cattle futures lost significant ground and are way behind the cash markets at the current time. A few stick-out sales this week was mostly weights over 600 lbs. at some of the weeks special sales. Unionville Livestock Market sold a load of 611 lb. steers for 509.50, a load of 671 lb. steers for 472.00 and a load of 735 lb. steers for 432.50. Green City Livestock Auction sold 42 head of 764 lb. steers for 410.50 and a load of 833 lb. steers for 387.50. Joplin Regional Stockyards sold 30 head of 861 lb. steers for 375.00 and 10 full loads (616 head) of 941 lb. steers at 362.00. Green City Livestock Auction sold 2 loads of 713 lb. heifers for 391.00. Due to the 4th of July no USDA reports were published on Friday. Boxed beef cut-out values were lower for the week as of Thursday's close. Choice closed on Thursday at 387.07, down 3.96 and Select closed at 367.43, down 4.15 compared to last week. The choice/select spread is at 19.64 per cwt. Negotiated feedlot sales as of the 2:00 cutoff time on Thursday was reported at 56K head. Live sales reported at 255.00-256.00 and dressed sales 403.00. The Missouri Stocker formula consists of 3158 head with a weighted average weight of 557.88 lbs. and a price value of 477.19, 0.91 higher than last week. The steer/heifer is 49.04 per cwt.

MISSOURI WEEKLY HAY SUMMARY 6/25/2026

Although several farmers took a chance and got some hay baled rains have made it a challenge to get hay baled dry thus far. As of the latest crop progress report, haying has fallen behind the 5-yr average pace now. Looking ahead to next week it seems as if the weather is going to break and heat up right in time for fireworks, which should let producers catch up. Wheat and fescue seed harvest has been in full swing over the last two weeks and is well past the halfway point. Pastures conditions show Seventy-six percent of the state in good to excellent conditions, and other than the SE drought is not a concern currently with much of the state having a surplus of moisture. Hay demand is light, and supplies are moderate. Hay prices are generally steady. The Missouri Department of Agriculture has a hay directory at <https://apps.mda.mo.gov/haydirectory> or visit the University of Missouri Extension feed stuff finder at <https://feedstufffinder.org>
