MISSOURI WEEKLY CATTLE AUCTION SUMMARY

Total Receipts: 27,754 Week Ago: 27,506 Year Ago: 23,722

Compared to last week, feeders sold steady to 10.00 lower. The supply of feeders was moderate as temperatures cooled and the fall run draws closer. Several reporters did note an increase in new crop calves this week. As temperatures become more unstable health and weaning programs will become increasingly important to buyers and reflected in prices paid. Southcentral and Southwest Missouri continue to be very dry although some spots did see some much-welcome rains. Areas farther north are in better shape, and some areas are even getting enough rain to delay harvest for a bit. Cattle futures closed the week higher even though it wasn't reflected much in the cash markets this week. Another border port was opened for Mexican cattle this week, numbers crossing at this time really aren't enough to likely make any impact, however. Cattle slaughter was interrupted at some locations this week by ICE and total weekly slaughter estimations were significantly lower than what anyone in the industry would like to see. Stick-out sales of drafts over 20 head included: 36 head of 458 lb. steers at Ozark Regional Stockyards that sold for 488.00, another 28 head of 583 lb. steers sold for 411.00. Joplin Regional Stockyards sold 27 head of 505 lb. steers for 440.00, 160 head of 649 lb. steers for 393.00, and 155 head of 911 lb. steers for 326.50. Mo-Kan Livestock Market sold 412 head of 705 lb. steers for 383.25 and 62 head of 752 lb. steers for 367.00. Windsor Livestock Auction sold 67 head of 830 lb. steers for 347.00. Callaway Livestock Center sold 60 head of 852 lb. steers for 337.75. Kingsville Livestock Auction sold 160 head of 675 lb. heifers for 375.00 and 66 head of 811 lb. heifers for 345.00. Windsor Livestock Auction sold 70 head of 715 lb. heifers for 360.00. Boxed beef cut-out values were higher for the week. Choice closed at 378.83, up 6.89 and Select closed at 355.76, up 2.50 compared to last week. The choice/select spread is 23.07 per cwt. Negotiated feedlot sales as of the 2:00 cutoff time on Friday were reported just over 28K head, trade in the southern plains was not reported due to confidentiality rules within mandatory price reporting. Although no official prices are being reported rumors are that a 4.00-5.00 premium exists in the south. In the north, live prices were mostly 220.00 and dressed prices mostly 345.00-350.00. The Missouri Stocker formula consists of 3917 head with a weighted average weight of 551.48 lbs. and a price value of 410.09, 2.75 lower than last week. The steer/heifer is 41.70 per cwt.

MISSOURI WEEKLY HAY SUMMARY 9/18/2026

Summer keeps dragging on and extreme heat continues to set over the state. Areas in the northern half of the state have seen some moisture and improvements in drought conditions but southwest and south central remain very dry with some areas in D3 or Extreme Drought. Some hay feeding is taking place and concerns with water are present. Even more so is the fear the days will tick away and the growing season will end before there is any fall pasture growth if moisture doesn't arrive soon. Corn harvest is in full swing and the state passed the halfway mark this week, beans are just getting started in a few areas. The supply of hay is moderate to heavy and hay listed for sale is abundant, especially fair to good quality grass types of hay. Hay demand and movement have been light to moderate. Hay prices are steady to firm. The Missouri Department of Agriculture has a hay directory at <https://apps.mda.mo.gov/haydirectory> or visit the University of Missouri Extension feed stuff finder at <https://feedstufffinder.org>
