MISSOURI WEEKLY CATTLE AUCTION SUMMARY

Total Receipts: 29,673 Week Ago: 26,800 Year Ago: 27,892

Compared to last week, feeders sold steady to 5.00 higher, with a few spots of 10.00 higher. The supply of feeders was moderate with a good mixture across all weight classes. Demand is good, although where calf prices fall in the spreads is very dependent upon health and weaning programs. This of course is typical for early fall when temperatures swing wildly, and health risk is a huge concern. There was some rain across the state although amounts varied and despite some moisture areas in the south central and southwest remain very dry. Several producers in those areas already feeding some hay and pastures are pretty much gone for the year now. On the other side of the coin a notable increase in interest in replacement quality heifers was seen this week in areas of the state where pasture and feed is more plentiful. A few stick-out sales this week included: Lolli Brothers Livestock Market that sold 26 head of 506 lb. steers for 449.00 and 29 head of 561 lb. steers for 435.50. Callaway Livestock Center sold 59 head of 686 lb. steers for 412.00. Joplin Regional Stockyards sold 27 head of 709 lb. steers for 380.00. South Central Regional Stockyards sold 70 head of 754 lb. steers for 369.00. Kingsville Livestock Auction sold 113 head of 807 lb. steers for 355.00. Unionville Livestock Market sold 62 head of 881 lb. steers for 343.25. Tina Livestock Market sold 56 head of 913 lb. steers for 335.00. South Central Regional Stockyards sold 93 head of 564 lb. heifers for 404.00. Windsor Livestock Auction sold 74 head of 369 lb. heifers tagged as replacements for 369.00. Unionville Livestock Market sold 24 head of 782 lb. replacement heifers for 3050.00 per head. Boxed beef cut-out values were slightly lower for the week. Choice closed at 372.31, down 1.04 and Select closed at 353.05, down 1.25 compared to last week. The choice/select spread is 19.26 per cwt. Negotiated feedlot sales as of the 2:00 cutoff time on Friday were reported to be just over 46K head. In the north, live prices were mostly 222.00-225.00 with a few late sales up to 227.00 and dressed prices were mostly 350.00. Prices in the southern plains were not reported due to confidentiality rules within mandatory price reporting although private sources showed some at 228.50. The Missouri Stocker formula consists of 3,745 head with a weighted average weight of 542.37 lbs. and a price value of 409.14, 5.89 higher than last week. The steer/heifer is 39.37 per cwt.

MISSOURI WEEKLY HAY SUMMARY 10/15/2026

The state continues to be two very different stories between the have and have nots when it comes to moisture. North of the Missouri River conditions are generally good while south is far from anything good. The area of D3 or extreme drought continues to increase and even some D4 or exceptional drought showing now. There was some moisture this week and a few areas small areas did receive 3-4 inches, but as of this report most was in 1-2-inch amounts, very welcome but still a long way from what is needed. In the south several producers are feeding hay or some supplement, and water issues also exist. As of this time producers are still easily able to find hay for sale, but fuel prices add a lot to getting it to the farm. The supply of hay is moderate to heavy, especially fair to good quality grass types of hay. Hay demand and movement have been moderate. Hay prices are steady to firm.
