Guidelines and Procedures
Section 1

Legal Authorization: **Chapter 135.679 RSMo.**

**A. PURPOSE OF THE PROGRAM**

Provide Missouri beef cattle farmers with an economic incentive to background and/or finish Missouri born and raised qualified beef cattle in this state.

**B. DEFINITIONS**

1. **“Agricultural property” means:** any real and personal property, including, but not limited to buildings, structures, improvements, equipment, and livestock, that is used in or is to be used in this state by residents of this state for:

   a. The operation of a farm or ranch; and
   b. Grazing, feeding, or the care of livestock.

2. **“Baseline number” means:** the average number of animals finished for the past two years; used for the purpose of calculating a qualifying increase in numbers of finished animals.

3. **“Baseline weight” means:** the average weight, in the immediate past two (2) years, of all beef animals sold that are thirty (30) months of age or younger, categorized by sex. Except that a qualified sale or subsequent qualified sale to a harvest facility shall not be considered when calculating the baseline weight. The baseline weight, once established, will be effective for a period of three (3) years.

4. **“Modified baseline weight” is:** weight set by MASBDA. The modified baseline weight shall be established by MASBDA on a regional basis based on beef animal sales reported by the Missouri Department of Agriculture Market News. These numbers are separated into two categories based off sex of the cattle, steers and heifers, and based off weights of 599 lbs or less or 600 lbs or more. This number is used when MASBDA is required to set the weight for calculation of a tax credit.

5. **"Qualifying beef animal" means:** any beef animal that is certified by the authority – an animal whose primary purpose is for the production of beef including dairy breed male calves, excluding those animals specific for breeding purposes AND:
a. that can be verified with written birth records (subject to audit) as being born in this state after August 28, 2008, AND:
b. certified subject to penalty of perjury that the qualified beef animal was also raised and backgrounded in this state by the Missouri taxpayer; or
c. certified subject to penalty of perjury that the qualified beef animal was also raised, backgrounded, and finished in this state by the Missouri taxpayer;

- “Raised” means from the time of birth until weaned.
- “Backgrounded” means any additional weight at the time of the first qualifying sale, before being finished, so long as the additional weight is one hundred (100) pounds or greater than the established baseline or modified baseline weight.
- “Finished” means the period from backgrounded to harvest.

d. No more than thirty months of age as verified by written birth records.
e. Qualified beef animals may be purchased versus home-raised provided they meet the requirements of the program.

6. “Qualified sale” means: the first time a beef animal is sold in this state after being backgrounded.

7. “Subsequent qualified sale” shall mean: any sale after the first qualified sale so long as the weight is greater than the prior sale weight.

C. ELIGIBILITY QUALIFICATIONS – CATTLE FARMER

1. Any taxpayer (individual or entity) who:
   a. Is subject to the tax imposed in Chapter 143, RSMo (excluding withholding tax imposed by sections 143.191 to 143.265, RSMo), or the tax imposed in Chapter 147, RSMo;

   b. In the event the qualifying beef animal producer has fewer than two (2) years of production, then the modified baseline weight shall be established by the available average weight in the immediate past years of all beef animals sold that are thirty (30) months of age or younger, categorized by sex, from the following documents:

      - Copies of ALL scale tickets and/or sales receipts of all Qualified Beef Animals thirty months of age or less, sold during the immediate past years by sex.

   c. In the event the qualifying beef animal producer has no previous production, then the modified baseline weight shall be established by MASBDA on a regional basis based on beef animal sales reported by the Missouri Department of Agriculture, Market News Service as follows:

      | Perry             | Shannon     | Lawrence   | Lafayette     |
The modified baseline weight is based on the county/area of residence of the beef producer.

The baseline is a two (2) year average based on the following weight groups in each of the eight (8) areas based on the following weight groupings:

- 200 lbs – 599 lbs
- 600 lbs and up feeder cattle

d. An applicant who is a cow-calf producer AND has not backgrounded or finished cattle have the opportunity to have all calves qualify as long as they meet the 100 pound minimum weight gain requirement. The tax credit will be calculated from the average weight of the calves sold for the past 2 years. Once that average base line weight is determined by MASBDA, the producer would have to add a minimum of 100 lbs of gain to the calves to qualify for any tax credit. The tax credit would then be calculated on either .10 cents per pound of gain on calves weighing 599 lbs or less or .25 cents per pound of gain on calves weighing 600 lbs or more.

e. Tax Credits will be calculated as follows:

- Put on an additional 100 pounds or greater over your established baseline weight.
- (Qualified sale weight minus baseline or modified baseline weight) multiplied by $.10 per pound provided the finished sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing up to 599 lbs.
- (Qualified sale weight minus baseline or modified baseline weight) multiplied by $.25 per pound provided the finished sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing 600 lbs. or more.
- In the event the qualifying beef animal producer has no previous production, the modified baseline weight shall be established by MASBDA on a regional basis based on beef animal sales reported by the Missouri Department of Agriculture Market News.

2. **Current Backgrounders** - Those who currently background some or all of the calves raised or those who purchase calves to background. Examples of these types of calves would be stockers and feeders. Stockers refers to weaned calves grazing pasture to enhance growth prior to finishing and slaughter; they are usually younger, weigh less and are of lower condition (finish) than “feeders.” Feeders refer to weaned calves grazing pasture and of sufficient weight and maturity to be placed on high-energy rations for finishing; they are generally older, weigh more, and carry more condition (finish) than stockers.

a. The baseline weight will be established from the following documents:
• Copies of ALL scale tickets and/or sales receipts of all Qualified Beef Animals thirty months of age or less, sold during the immediate past two (2) years by sex.

b. In the event the qualifying beef animal producer has fewer than two (2) years of production, then the baseline weight shall be established by the available average weight in the immediate past years of all beef animals sold that are thirty (30) months of age or younger, categorized by sex, from the following documents:

• Copies of ALL scale tickets and/or sales receipts of all Qualified Beef Animals thirty months of age or less, sold during the immediate past years by sex.

c. In the event the qualifying beef animal producer has no previous production, then the modified baseline weight shall be established by MASBDA on a regional basis based on beef animal sales reported by the Missouri Department of Agriculture, Market News. (See list above regarding your county’s region)

d. Tax credits will be calculated as follows:

• Put on an additional 100 pounds or greater over your established baseline weight.
• Most recent year number of beef animals sold multiplied by (qualified sale weight minus baseline or modified baseline weight) multiplied by $.10 per pound provided the finished sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing up to 599 lbs.
• Most recent year number of beef animals sold multiplied by (qualified sale weight minus baseline or modified baseline weight) multiplied by $.25 per pound provided the finished sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing 600 lbs. or more.

3. Current Finishers - Those who currently finish some or all of the calves raised or purchase cattle to finish. The baseline weight will be established from the following documents:

a. Copies of ALL scale tickets and/or sales receipts of all Qualified Beef Animals thirty months of age or less, sold during the immediate past two (2) years by sex.

b. Immediate past two (2) years scale/sales receipts must be certified, subject to penalty of perjury, that the qualified beef animals were born, raised and finished in Missouri.

c. Current qualified beef animal finishers may qualify for tax credits by increasing the number of animals that are finished based on:

d. Modified baseline weight will be established by MASBDA on a regional basis of all backgrounded beef animal sales reported by the Missouri Department of Agriculture, Market News Service, as noted above.

e. Baseline number will be established based on the immediate past two (2) years finished beef animals sold.

f. In the event the qualifying beef animal producer has fewer than two (2) years of production, then the baseline number shall be established by the available average number in the immediate past years of all beef animals sold that are thirty (30) months of age or younger, categorized by sex.

g. In the event the qualifying beef animal producer has no previous production, then the modified baseline weight shall be established by MASBDA on a regional basis based on beef animal sales reported by the Missouri Department of Agriculture, Market News.
h. Tax credits will be calculated as follows:

- (Most recent year number of beef animals sold minus baseline number) multiplied by (finished weight minus modified baseline weight) multiplied by $.25 per pound provided the finished sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing 600 pounds or more.

4. Retained Ownership - In the event a qualified beef animal producer has retained ownership of the qualified beef animal through backgrounding and/or finishing out-of-state, the baseline weight shall be established by the average in-weight at the point of destination at the time of transfer out-of-state in the immediate past two (2) years of all beef animals that are thirty (30) months of age or younger, categorized by sex, provided the backgrounding and/or finishing is now completed in Missouri.

F. QUALIFICATION OF ELIGIBLE QUALIFIED BEEF ANIMAL PRODUCER

1. Application review: MASBDA will only review completed applications.

2. Any beef producer may submit a Qualified Beef Animal Tax Credits Eligibility (MO Form QBE) along with an application fee of one hundred dollars ($100). Once qualified, the beef producer shall be considered qualified for the following three years.

3. Financial Statements for past two (2) years.

G. ISSUANCE OF THE TAX CREDITS

1. For all tax years beginning on or after January 1, 2009, but ending on or before December 31, 2021 a taxpayer shall be allowed a tax credit for the first qualifying sale and or a subsequent qualifying sale of all qualifying beef animals.

2. The tax credit amount shall be ten cents ($.10) per pound or ($.25) per pound and shall be calculated as follows:

a. The qualifying sale weight minus the baseline weight multiplied by $.10 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline or modified baseline weight for cattle weighing up to 599 pounds.

b. The qualifying sale weight minus the baseline or modified baseline weight multiplied by $.25 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline weight for cattle weighing 600 pounds or more.

c. MASBDA may waive no more than twenty-five percent (25%) of the required one hundred (100) pound gain. The waiver shall be made on an individual basis and based only on any disaster declaration by the U.S. Department of Agriculture.

3. The Form QBE must be submitted with a one hundred ($100) dollar non-refundable application fee. Upon approval of the tax credit, an issuance fee of 3% must be submitted for each tax credit issued.

4. The tax credits will be issued on an as-received basis for the Qualified Beef Tax Credit Program and Meat Processing Facility Tax Credit Program until the total calendar year limit of $2,000,000 is reached.
