

This form is used to separately list multiple parcels for the same application. A parcel is defined by the legal land description and verified with county ownership records. In order to be approved within the same application, and for no additional application fees, all parcels must be **contiguous and owned by the same person or entity**. Supporting evidence must be included.

A *Supplemental Parcel Attachment* is in addition to an application and cannot stand alone. Each parcel requires its own attachment. The primary parcel of operations is included in the main application form, and is known as Parcel A.
